

Help defend Mars with Cisco DNA Center & Catalyst 9300

Let's face it. Defending a network now is a challenge anywhere, especially on Mars. But it's actually easier than you think. Visit the Beta Base to use DNA Center and the Catalyst 9300 to provision a fabric overlay and create a network overlay on Mars. See how easy defending a network actually can be. Join the fun exploring new gaming levels and solutions challenges.

Register to qualify to win prizes. Be sure to log in each time you play to track your progress on our global leaderboard.
