ESPIADINHA

System Overview

- Model-driven, end-to-end service lifecycle and customer experience focused
- Seamless integration with existing and future OSS/BSS environment
- Loosely-coupled and modular architecture leveraging open APIs and standard protocols
- Orchestration across
- multi-domain and multi-layer for network-wide, centralized policy and services

ESPIADINHA

Lembre-se que foi apenas uma espiadinha!
Hoje às (15h) de Brasília, 9 de outubro de 2019, você terá a oportunidade de ver tudo no evento, além de poder interatuar fazendo perguntas ao vivo.
