# Software Licensing Operations

How To: Make my License a High Availability (HA) License Quick User Guide

High Availability (HA) can be achieved in Software Infrastructure Fulfillment Tool (SWIFT) completing the following below steps. Log in with your CCO ID and password: www.cisco.com/go/license
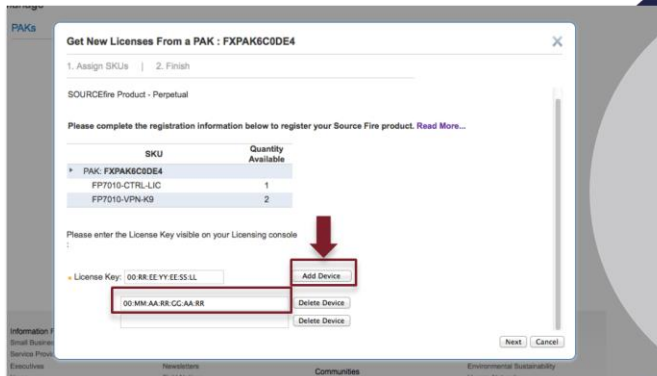

1. From the default homepage, enter the Product Authorization Key (PAK) into the 'Get New Licenses' field. Click 'Fulfill'.

2. Provide the license key information in the "License Key" text box

3. Click on "Add Device" button and enter the additional "License Key". Then, click "Next".

Add Additional License Key

4. Under License Agreement, please read through the Software License agreement by clicking the 'View License Terms...' link.
   a. This agreement reviews important terms and policies in regards to Cisco Software Licensing. Once completed, please check the box to accept.

   Review the Recipient Information and validate the email address. Then click, "Submit".

Confirm Transaction

5. The system processes and a confirmation message displays confirming the request.
